30 Series Frame

## 30 Series Frame

### Frame Features

#### Overview

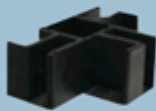

The 30 series is our lightest and simplest frame, its targeted towards stall holders, exhibitions and promotional days.

Our 30 Series frame is 100% Aluminium providing great strength whilst still using a simple to use pull pin connector design, nylon connectors and internally reinforced cross pieces.

#### Quick Benefits/Features

- Aluminium – No chances of rust
- Lightweight – lighter than steel at only 17kg
- Easy for a single person to use
- Durable nylon connectors
- Thick 2mm aluminium used in legs

#### Nylon Connectors

These nylon connectors are very easy to use and will last the test of time.

- High quality composite material
- 5 year guarantee on connectors themselves

#### Carry Bag Included

Included with your frame you will get a carry bag to put your marquee in.

- 500D waterproof polyester bag
- Large enough for frame, top and walls

#### 1 Year Warranty

Included with the marquee is a great 1 year warranty on all items for material defects and manufacturing faults.

- Peace of mind
- Thick sidewall construction

### Available Sizes

The 30 series is available in our three most popular sizes.

Dimensions	Weight
3m x 3m	20kg
3m x 4.5m	25kg
3m x 6m	35kg

Weights include the frame, top and three walls each marquee comes with.

Other sizes are available including 2.4m x 2.4m, 4m x 4m and 4m x 8m.

### What to Consider

We see that not one frame is suited to everyone, rather depending on application, you should select one frame or another. As such, we are happy to discuss both the pros and cons of each frame series.

#### Pros

- Easy to carry – Very light
- Can be put up by one person easily

#### Cons

- Least resistant of our frames to wind
- Not recommended for beach use
